SEPA Determination of Nonsignificance (DNS)

File: SEP2018-00122

Project Description: Replace existing dock in same footprint

Proponent: Michael Pietro

Address and Parcel #: 4403 Lakeway Drive / APN#: 380327361156

Lead Agency: Whatcom County Planning & Development Services

Zoning: UR Comp Plan: UGA Shoreline Jurisdiction: Shoreline Residential, Aquatic

The lead agency for this proposal has determined that with proper mitigation, no significant adverse environmental impacts are likely. Pursuant to RCW 43.21C.030(2)(c), an environmental impact statement (EIS) is not required. This decision was made following review of a completed SEPA environmental checklist and other information on file with the lead agency. This information is available to the public on request.

There is no comment period for this DNS.

Pursuant to WAC 197-11-340(2), the lead agency will not act on this proposal for 14 days from the date of issuance indicated below. Comments must be received by 4:00 p.m. on <u>January 29, 2019</u> and should be sent to: Kyla Walters, kwalters@whatcomcounty.us

Responsible Official: Mark Personius, mpersoni@whatcomcounty.us

Title: Director

Telephone: 360-778-5900

Address: 5280 Northwest Drive

Bellingham, WA 98226

Date of Issuance: <u>January 15, 2019</u> Signature: ____

An aggrieved agency or person may appeal this determination to the Whatcom County Hearing Examiner. Application for appeal must be filed on a form provided by and submitted to the Whatcom County Current Planning Division located at 5280 Northwest Drive, Bellingham, WA 98226, during the ten days following the comment period, concluding February 8, 2019.

MA

You should be prepared to make a specific factual objection. Contact Whatcom County Current Planning Division for information about the procedures for SEPA appeals.

J.E. "Sam" Ryan Director

SEP 2018 - 00122

SEPA Environmental Checklist

Purpose of Checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to <u>all parts of your proposal</u>, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of Checklist for Non-Project Proposals:

For non-project proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the <u>Supplemental Sheet for Non-project Actions (Part C)</u>. Please completely answer all questions that apply and note that the words "project", "applicant", and "property or site" should be read as "proposal", "proponent" and "affected geographic area", respectively. The lead agency may exclude (for non-projects) questions in Part B – Environmental Elements that do not contribute meaningfully to the analysis of the proposal.

A Background

1	Name of proposed project, if applicable: Pietro dock replace
2	Name of applicant: Michael Pietro Applicant phone number: (360) 738-2153 Applicant address: 4403 Lakeway Dr. City, State, Zip or Postal Code: Bellingham, WA 98229
	Applicant Email address:
3	Contact name: Jay Irwin Contact phone number: (360) 410-6745 Contact address: 702 Kentucky St. #707 City, State, Zip or Postal Code: Bellingham, WA 98225 Contact Email address: irwinlanduse@gmail.com
4	Date checklist prepared: 12/26/2018
5	Agency requesting checklist: Whatcom County PDS /
6	Proposed timing or schedule (including phasing, if applicable): Construction in Winter/Spring 2019
7	Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? Yes No VIII If yes, explain:
8	List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal: None
9	Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? Yes No v. If yes, explain.

10 List any government approvals or permits that will be needed for your proposal, if known.

Shoreline Exemption (Whatcom County)
Hydraulic Project Approval (WDFW)
Building permit (Whatcom County)

11 Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

Replace existing residential dock in same footprint on Lake Whatcom. Replaced pier section to be pre-fabricated aluminum or steel with ThruFlow grated panels. Existing wooden piles (10) to be replaced with 10" diameter untreated steel piles as shown on attached plans. Replacement float $(8' \times 20')$ to be steel trussed with vinyl covered flotation to avoid contact with lake water. All decking to be ThruFlow grated panels.

12 Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

dock is located at 4403 Lakeway Dr. Section 27, township 38N, range 3E.

1

B Environmental Elements

E	arth
a.	General description of the site:
	Flat Rolling Hilly Steep Slopes Mountainous Other
b.	What is the steepest slope on the site (approximate percent slope)? +/- 5%
c.	What general types of soils are found on the site (for example, clay, sand gravel, peat, muck)? If you know the classification of agricultural soils specify them and note any agricultural land of long-term commercia significance and whether the proposal results in removing any of these soils.
	According to the USDA/NRCS website the soils are #159, Squalicum-Urban land complex
d.	Are there surface indications or history of unstable soils in the immediate vicinity? Yes No
	If so, describe.
Э.	Describe the purpose, type, total area, approximate quantities and total affected area of any filling excavation or grading proposed.
	No fill proposed
	Indicate source of fill.
	N/A
	Indicate were excavation material is going.
	N/A

	١.	Yes No V
		If so, generally describe.
	g.	About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?
		No change to impervious surfaces
	h.	Proposed measures to reduce or control erosion, or other impacts to the earth, if any:
		None
2.	A	ir
	a.	What types of emissions to the air would result from the proposal during construction, operation and maintenance when the project is completed (i.e., dust, automobile, odors, or industrial wood smoke)?
		None
		If any, generally describe and give approximate quantities if known.
	L	And there are off site assumes of anticipal and the Hall was offered
	D.	Are there any off-site sources of emissions or odor that may affect your proposal? Yes No
		If so, generally describe.
	C.	Proposed measures to reduce or control emissions or other impacts to air, if any:
		None

3. Water

a.	Surface:							
	(1)	Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? Yes No						
		If yes, describe type and provide names. If appropriate, state what stream or river it flows into.						
		Lake Whatcom						
	(2)	Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? Yes No						
		If yes, please describe and attach available plans. All work to be one on/over/in Lake Whatcom within +/- 100' of OHWM as shown on attached plans.						
	(3)	Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. None						
		Indicate the source of fill material.						
		N/A						
	(4)	Will the proposal require surface water withdrawals or diversions? Yes No						
		Give general description, purpose, and approximate quantities if known.						
		Does the proposal lie within a 100-year floodplain? Yes No						
		If so, note location on the site plan.						

 (5) Does the proposal involve any discharges of waste materials to surface waters? Yes
b. Ground Water:
(1) Will ground water be withdrawn from a well for drinking water or other purposes? Yes No
If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.
(2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals; agricultural; etc.). Describe the general size of the system, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.
No
c. Water runoff (including stormwater):
 Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known).
None

		Where will this water flow?
		Will this water flow into other waters? Yes No
		If so, describe.
		Could waste materials enter ground or surface waters? Yes No V
		If so, generally describe.
		Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site: Yes No 🗸
		If so, describe.
d.		oosed measures to reduce or control surface, ground, and runoffer impacts, if any:
	None	
	110110	
Pla	nts	
		k types of vegetation found on the site:
u.		Deciduous tree: alder, maple, aspen, other
		Evergreen tree: fir, cedar, pine, other
	~	Shrubs
	\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\	Grass
		Pasture
		Crop or grain
		Orchards, vineyards or other permanent crops
		Wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
		Water plants: water lily, eelgrass, milfoil, other
		Other types of vegetation

4

b.	What kind and amount of None	vege	tation will be removed or altered	?
c.	List threatened or endange	ered	species known to be on or near t	the site.
	None known			
d.	Proposed landscaping, us preserve or enhance veget		f native plants, or other men on the site, if any:	asures to
	None			
	List all noxious weeds and site.	inva	asive species known to be on o	r near the
	None known			
5. An	nimals			
a.	Check any birds and animative or are known to be on		which have been observed on o ear the site:	r near the
	Birds: Hawk, Eagle, Other:		Heron, Songbirds;	_
	Mammals: Deer, Elk, Other:	В	Bear, Beaver;	
	Fish: Bass, Trout, Shellfish;		Salmon, Herring, Other:	e
b.	List any threatened or enda	ange	red species known to be on or no	ear the
	None known			

	c.	Is the site part of a migration route? Yes 🗹 No 🗌
		If so, explain. Pacific flyway
	d.	Proposed measures to preserve or enhance wildlife, if any:
		Wooden decking will be replaced with ThruFlow grated panels which will improve habitat conditions in the nearshore environment.
	e.	List any invasive species known to be on or near site.
		None known
6.	Er	nergy and Natural Resources
	a.	What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.
		None
	b.	Would your project affect the potential use of solar energy by adjacent properties? Yes No
		If so, generally describe.
	C.	What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:
		None
7.	Er	nvironmental Health
	a.	Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? Yes No
		If so, describe.
		(1) Describe any known or possible contamination at the site from present or past uses.
		None known

(2)	Describe	existing	hazaro	lous	chemicals	/condi	tions	that	might	affect
	project	developm	nent a	nd	design.	This	inclu	ıdes	underg	round
	hazardou	biupil au	and ga	s tra	ansmission	pipeli	ines	locate	d with	in the
	project a	rea and ir	า the vi	cinity	y .					

None known

(3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the projects development or construction, or at any time during the operating life of the project.

None known

(4) Describe special emergency services that might be required.

None

(5) Proposed measure to reduce or control environmental health hazards, if any:

None

b. Noise

(1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

None

(2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

In short term, construction noise would result (about 1 week).

(3) Proposed measures to reduce or control noise impacts, if any:

Though preferred/expected method of piling installation is vibratory hammer, if subsurface soil conditions require an impact hammer, noise attenuation devices will be used (wood or plastic block between the pile and hammer).

8

Lā	d and Shoreline Use
a.	What is the current use of the site and adjacent properties? Single family residential as are adjacent uses.
	Will the proposal affect current land uses on nearby or adjacen properties? Yes ☐ No ☑ f so, describe.
b.	las the project site been used as working farmlands or working fores ands? Yes \(\textstyle \text{No } \(\textstyle \text{V} \) f so, describe.
	How much agriculture or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any?
	If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use? lone
	Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? Yes No If so, how:

c. Describe any structures on the site.

There is a single family residence and appurtenant dock on the site.

d.	Will any structures be demolished? Yes No No I
	Existing dock will be demolished
e.	What is the current zoning classification of the site?
	Urban Residential
f.	What is the current comprehensive plan designation of the site?
	UGA
g.	If applicable, what is the current shoreline master program designation of the site?
	Shoreline residential /AQVATT C
h.	Has any part of the site been classified as a critical area by the city of county? Yes No
	Lake Whatcom is a critical area
ī.	Approximately how many people would reside or work in the completed project?
	Project is a non-habitable structure
j.	Approximately how many people would the completed project displace?
	None
k.	Proposed measures to avoid or reduce displacement impacts, if any:
	None
l.	Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:
	None
m.	Proposed measures to ensure the proposal is compatible with nearby agricultural and forest lands of long-term commercial significance, if any?
	None

٩рр	lican	t		Age	ency Use Only

	b.		light or glare fror ere with views?	n the finished project be a safety l	nazard or

No

Ç.	What existing off-site sources of light or glare may affect your proposal?		
	None		
d.	Proposed measures to reduce or control light and glare impacts, if any:		
	None		
Re	ecreation		
a.	What designated and informal recreational opportunities are in the immediate vicinity?		
	Fishing, swimming, boating, etc.		
b.	Would the proposed project displace any existing recreational uses? If so, describe.		
	No		
c.	Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:		
	None		
13 Historic and Cultural Preservation			
a.	Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers located on or near the site? Yes No VI so, specifically describe.		
b.	Are there any landmarks, features, or other evidence of Indian, historic use or occupation, this may include human burials or old cemeteries? Yes No		
	d. Rea. b.		

	c.	Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples: Include consultation with tribes and the Department of Archeology and Historic Preservation, archaeological surveys, historic maps, GIS data, etc.
		None
	d.	Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.
		None
14	T	ransportation
	a.	Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plan, if any.
		Site is on Lakeway Dr. (public)
	b.	Is site or geographic area currently served by public transit? Yes No No If not, what is the approximate distance to the nearest transit stop?
	c.	How many parking spaces would the completed project have? How many would the project eliminate?
		None
	d.	Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? Yes No V If so, generally describe (indicate whether public or private).

	e.	Will the project use (or occur in the immediate vicinity of) Water, Rail, or Air transportation? If so, generally describe.
	f.	How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?
		None
	g.	Proposed measures to reduce or control transportation impacts, if any: None
15	Pt	ublic Services
	a.	Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? Yes No If so, generally describe.
	b.	Proposed measures to reduce or control direct impacts on public services, if any.
		None
16	Ut	tilities
	a.	Check utilities currently available at the site:
		 Electricity, Water, Telephone, Septic system, Natural gas, Refuse service, Sanitary sewer, Other

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

None
