**Project Proposal: Request for IPRTF Review: PART B**

*If the proposal falls exclusively in Intercept 0, please complete the following questions as completely as possible:*

**The outcomes and intentions of a program are to reduce incarceration or the likelihood of involvement with the criminal justice system, versus prevention from unhealthy outcomes in general. Prevention efforts should be considered through the lens of incarceration rather than cataloging all community activities.**

Prevention programs that may have an impact on reducing criminogenic risk factors, but do not include criminogenic risk factor reduction as a primary purpose of the program, are listed in *(Document X)*.

How does the program target criminogenic risk factors? \_\_\_\_\_

\_\_\_\_\_

Is reducing the likelihood of incarceration one of the specific intentions of the program?
