SEPA Determination of Nonsignificance (DNS)

File: SEP2020-00084

Project Description: Replacing existing wood decking on all marina floats in the same footprint with new light-permeable decking.

Proponent: Birch Bay Village Community Club

Address and Parcel #: 8055 Cowichan Road, Blaine / 405126195517

Lead Agency: Whatcom County Planning & Development Services

Zoning: Urban Residential **Comp Plan:** Urban Growth Area **Shoreline**

Jurisdiction: Aquatic & Shoreline Residential

The lead agency for this proposal has determined that with proper mitigation, no significant adverse environmental impacts are likely. Pursuant to RCW 43.21C.030(2)(c), an environmental impact statement (EIS) is not required. This decision was made following review of a completed SEPA environmental checklist and other information on file with the lead agency. This information is available to the public on request.

Pursuant to WAC 197-11-340(2), the lead agency will not act on this proposal for 14 days from the date of issuance indicated below. Comments must be received by 4:00 p.m. on October 20, 2020 and should be sent to: Kyla Walters via email at KWalters@co.whatcom.wa.us

Responsible Official: Mark Personius, mpersoni@whatcomcounty.us

Title: Director

Telephone: 360-778-5900

Address: 5280 Northwest Drive
Bellingham, WA 98226

Date of Issuance: October 6, 2020

Signature: _____

A handwritten signature in black ink, appearing to be "M Personius", is written over a horizontal line.

An aggrieved agency or person may appeal this determination to the Whatcom County Hearing Examiner. Application for appeal must be filed on a form provided by and submitted to the Whatcom County Current Planning Division located at 5280 Northwest Drive, Bellingham, WA 98226, during the ten days following the comment period, concluding October 30, 2020.

You should be prepared to make a specific factual objection. Contact Whatcom County Current Planning Division for information about the procedures for SEPA appeals.

**WHATCOM COUNTY GIVES PUBLIC NOTICE THAT THE FOLLOWING SEPA
THRESHOLD DETERMINATION OF NON-SIGNIFICANCE (DNS) HAS BEEN
ISSUED TODAY SUBJECT TO THE 14 DAY COMMENT PERIOD
CONCLUDING ON OCTOBER 20, 2020.**

File: SEP2020-00084

Project Description: Replacing existing wood decking on all marina floats in the same footprint with new light-permeable decking.

Proponent: Birch Bay Village Community Club

Address and Parcel #: 8055 Cowichan Road, Blaine / 405126195517

Lead Agency: Whatcom County Planning & Development Services

Zoning: Urban Residential **Comp Plan:** Urban Growth Area **Shoreline**
Jurisdiction: Aquatic & Shoreline Residential

ANY PERSON OR AGENCY MAY APPEAL THE COUNTY'S COMPLIANCE WITH WAC 197-11 BY FILING AN APPEAL WITH THE WHATCOM COUNTY PLANNING AND DEVELOPMENT SERVICES LOCATED AT 5280 NORTHWEST DRIVE, BELLINGHAM, WA 98226. APPEALS MUST BE MADE WITHIN 10 DAYS AFTER THE END OF THE COMMENT PERIOD.

A Background

- 1 Name of proposed project, if applicable:
Dock Float Replacement

- 2 Name of applicant: Birch Bay Village Community Club
Applicant phone number: 360-371-7744
Applicant address: 8055 Cowichan Road
City, State, Zip or Postal Code: Blaine, WA 98230
Applicant Email address: jen@bbvcc.com

- 3 Contact name: Jen Callaghan
Contact phone number: 360-371-7744
Contact address: 8055 Cowichan Road
City, State, Zip or Postal Code: Blaine, WA 98230
Contact Email address: jen@bbvcc.com

- 4 Date checklist prepared: 09/22/2020

- 5 Agency requesting checklist: Whatcom County

- 6 Proposed timing or schedule (including phasing, if applicable):
December 2020 - March 2020 - Phase 1 of 4 (B Dock floats)
Remaining Floats over the next 5 years TBD

- 7 Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? Yes No
If yes, explain:

- 8 List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal:
We are unaware of any environmental impact of this project

- 9 Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal?
Yes No
If yes, explain.
None not related to this proposal

- 10 List any government approvals or permits that will be needed for your proposal, if known.

Army Corps of Engineers Permit
Standard Hydraulic Permit
Building Permit with Whatcom County
Electrical Permit to rerun/upgrade utilities
Plumbing Permit to rerun utilities

- 11 Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

Replacing deteriorated wood float structures in marina with pre-fabricated replacement structures using new materials and light-permeable fiberglass decking. Utilities to be reconnected/upgraded as required.

- 12 Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

Marina adjacent to 8055 Cowichan Road, Blaine, WA

B Environmental Elements

1 Earth

a. General description of the site:

- Flat
- Rolling
- Hilly
- Steep Slopes
- Mountainous
- Other

b. What is the steepest slope on the site (approximate percent slope)?
0

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

d. Are there surface indications or history of unstable soils in the immediate vicinity? Yes No

If so, describe.

e. Describe the purpose, type, total area, approximate quantities and total affected area of any filling excavation or grading proposed.

NA

Indicate source of fill.

NA

Indicate where excavation material is going.

NA

- f. Could erosion occur as a result of clearing, construction, or use?
Yes No

If so, generally describe.

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

NA

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

NA

2. Air

- a. What types of emissions to the air would result from the proposal during construction, operation and maintenance when the project is completed (i.e., dust, automobile, odors, or industrial wood smoke)?

Possible emissions from semi truck to deliver pre-fabricated float structures and/or crane to help launch

If any, generally describe and give approximate quantities if known.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? Yes No

If so, generally describe.

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

NA

3. Water

a. Surface:

- (1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? Yes No

If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Project is in a man-made marina off of Birch Bay/Strait of Georgia

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? Yes No

If yes, please describe and attach available plans.

Project is on top of the water body replacing float structures

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected.

Indicate the source of fill material.

- (4) Will the proposal require surface water withdrawals or diversions? Yes No

Give general description, purpose, and approximate quantities if known.

Does the proposal lie within a 100-year floodplain? Yes No

If so, note location on the site plan.

- (5) Does the proposal involve any discharges of waste materials to surface waters?

Yes No

If so, describe the type of waste and anticipated volume of discharge

b. Ground Water:

- (1) Will ground water be withdrawn from a well for drinking water or other purposes? Yes No

If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals.....; agricultural; etc.). Describe the general size of the system, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

NA

c. Water runoff (including stormwater):

- (1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known).

NA

Where will this water flow?

Will this water flow into other waters? Yes No

If so, describe.

(2) Could waste materials enter ground or surface waters?

Yes No

If so, generally describe.

(3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site: Yes No

If so, describe.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

4 Plants

a. Check types of vegetation found on the site:

- Deciduous tree: alder, maple, aspen, other
- Evergreen tree: fir, cedar, pine, other
- Shrubs
- Grass
- Pasture
- Crop or grain
- Orchards, vineyards or other permanent crops
- Wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- Water plants: water lily, eelgrass, milfoil, other
- Other types of vegetation

- b. What kind and amount of vegetation will be removed or altered?
None
- c. List threatened or endangered species known to be on or near the site.
See species list
- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:
None
- e. List all noxious weeds and invasive species known to be on or near the site.

5. Animals

- a. Check any birds and animals, which have been observed on or near the site or are known to be on or near the site:

Birds:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Hawk, | <input checked="" type="checkbox"/> Heron, |
| <input checked="" type="checkbox"/> Eagle, | <input checked="" type="checkbox"/> Songbirds; |
| <input type="checkbox"/> Other: | |

Mammals:

- | | |
|---------------------------------|----------------------------------|
| <input type="checkbox"/> Deer, | <input type="checkbox"/> Bear, |
| <input type="checkbox"/> Elk, | <input type="checkbox"/> Beaver; |
| <input type="checkbox"/> Other: | |

Fish:

- | | |
|--|-----------------------------------|
| <input type="checkbox"/> Bass, | <input type="checkbox"/> Salmon, |
| <input type="checkbox"/> Trout, | <input type="checkbox"/> Herring, |
| <input checked="" type="checkbox"/> Shellfish; | <input type="checkbox"/> Other: |

- b. List any threatened or endangered species known to be on or near the site.

- c. Is the site part of a migration route? Yes No

If so, explain.

- d. Proposed measures to preserve or enhance wildlife, if any:

- e. List any invasive species known to be on or near site.

6. Energy and Natural Resources

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.
Electric (tools), gas (fuel to run equipment)

- b. Would your project affect the potential use of solar energy by adjacent properties? Yes No

If so, generally describe.

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

7. Environmental Health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? Yes No

If so, describe.

- (1) Describe any known or possible contamination at the site from present or past uses.

NA

- (2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

NA

- (3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the projects development or construction, or at any time during the operating life of the project.

NA

- (4) Describe special emergency services that might be required.

NA

- (5) Proposed measure to reduce or control environmental health hazards, if any:

NA

b. Noise

- (1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

Basic construction equipment

- (2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Short term construction from installation and crane delivery

- (3) Proposed measures to reduce or control noise impacts, if any:

Limit hours to 8am - 4pm, work efficiently

8 Land and Shoreline Use

- a. What is the current use of the site and adjacent properties?
Community Marina Parking lot and office

Will the proposal affect current land uses on nearby or adjacent properties? Yes No
If so, describe.

- b. Has the project site been used as working farmlands or working forest lands? Yes No
If so, describe.

How much agriculture or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any?
NA

If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use?

- (1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? Yes No

If so, how:

- c. Describe any structures on the site.
Current marina has floating docks that are to be replaced

- d. Will any structures be demolished? Yes No
If so, what?
Floating dock sections

- KMW e. What is the current zoning classification of the site?
~~Community Common area~~ Urban Residential

- KMW f. What is the current comprehensive plan designation of the site?
~~Community Common Area~~ Urban Growth Area

- KMW g. If applicable, what is the current shoreline master program designation of the site?
Aquatic & Shoreline Residential

- KMW h. Has any part of the site been classified as a critical area by the city or county? Yes No
If so, specify.
Habitat Conservation Area, Marine Landslide Hazard Area

- i. Approximately how many people would reside or work in the completed project?
None

- j. Approximately how many people would the completed project displace?
None

- k. Proposed measures to avoid or reduce displacement impacts, if any:
None

- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:
None

- m. Proposed measures to ensure the proposal is compatible with nearby agricultural and forest lands of long-term commercial significance, if any?
None

9 Housing

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

<input type="checkbox"/>	High	Number of Units
<input type="checkbox"/>	Middle	
<input type="checkbox"/>	Low-income	

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

<input type="checkbox"/>	High	Number of Units
<input type="checkbox"/>	Middle	
<input type="checkbox"/>	Low-income	

- c. Proposed measures to reduce or control housing impacts, if any:

10 Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?
12 inches~

- b. What views in the immediate vicinity would be altered or obstructed?
None

- c. Proposed measures to reduce or control aesthetic impacts, if any:
None

11 Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?
None

- b. Could light or glare from the finished project be a safety hazard or interfere with views?
No

c. What existing off-site sources of light or glare may affect your proposal?
None

d. Proposed measures to reduce or control light and glare impacts, if any:
None

12 Recreation

a. What designated and informal recreational opportunities are in the immediate vicinity?
Boating

b. Would the proposed project displace any existing recreational uses? If so, describe.
No

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:
NA

13 Historic and Cultural Preservation

a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers located on or near the site? Yes No
If so, specifically describe.

b. Are there any landmarks, features, or other evidence of Indian, historic use or occupation, this may include human burials or old cemeteries?
Yes No

Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Yes No

Please list any professional studies conducted at the site to identify such resources.

None planned, as project is over water, no impact to area soils

- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples: Include consultation with tribes and the Department of Archeology and Historic Preservation, archaeological surveys, historic maps, GIS data, etc.

No impact to soils

- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

14 Transportation

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plan, if any.

Private roads service this area

- b. Is site or geographic area currently served by public transit?

Yes No

If not, what is the approximate distance to the nearest transit stop?

- c. How many parking spaces would the completed project have? How many would the project eliminate?

NA

- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? Yes No

If so, generally describe (indicate whether public or private).

e. Will the project use (or occur in the immediate vicinity of)

- Water,
 Rail, or
 Air transportation?
If so, generally describe.

Boats to help install

f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?

20 vehicular trips estimated (4 weeks, 5 days/week)

g. Proposed measures to reduce or control transportation impacts, if any:

None

15 Public Services

a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)?

Yes No

If so, generally describe.

b. Proposed measures to reduce or control direct impacts on public services, if any.

16 Utilities

a. Check utilities currently available at the site:

- Electricity,
 Water,
 Telephone,
 Septic system,

- Natural gas,
 Refuse service,
 Sanitary sewer,
 Other

- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.
PSE/Water service to be reconnected

Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

C Supplemental Sheet for Non-project Actions

(It is not necessary to use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment. When answering these questions, be aware of the extent the proposal or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

- 1 How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

None

Proposed measures to avoid or reduce such increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

None

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?

None

Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

None

Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

None

Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

None

Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

None - plan is to improve existing structure that will benefit the environment (light permeable grating, remove old treated wood from water body)
