

Whatcom County Coastal and Riverine Compound Flood Vulnerability & Risk Assessment

Whatcom County is conducting a community vulnerability and risk assessment to better plan for the compounding effects of riverine and coastal flooding with sea level rise. Results will be used to inform policies and plans to build community resilience to flooding.

COMMUNITY MEETING

When: Saturday, November 19th

Where: Birch Bay State Park, BP Heron Center, 7290 Birch Bay Drive, Blaine, WA

Time: 1:00–3:00 PM

There will be a presentation by the project team, followed by a Q&A session and interactive opportunities to share your feedback.

The project area includes Whatcom County's marine shorelines and lower Nooksack riverine shorelines.

Project Partners

Learn more and provide your input!

- Learn about sea level rise, storm, and flood projections for the county
- View hazard maps and share your experiences with flooding
- Share your priorities for coastal planning and management
